What is Pager?

```

(Pager)          (Pagination)          . (          )
      (previous)   (next)   (   )          .
/                .pager    <ul>          가          .

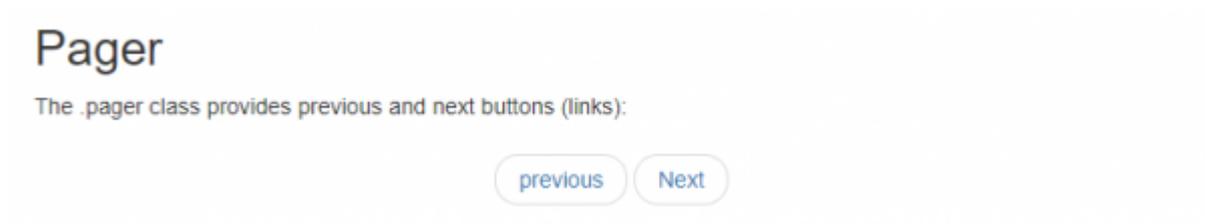

```

Pager

The .pager class provides previous and next buttons (links):

- [previous](#)
- [Next](#)

Result

Align Buttons

```

.pager .previous .next

```

Pager - Align Buttons

The .previous and .next classes align each link to the sides of the page:

- [Previous](#)
- [Next](#)

Result

Pager - Align Buttons

The .previous and .next classes align each link to the sides of the page:

[Previous](#)

[Next](#)

, [Bootstrap](#), [Pager](#)
