[About](#)

A background color is added to the links to show the link area.

Notice that the whole link area is clickable, not just the text.

```
ul { list-style-type: none; margin: 0; padding: 0; } li a { display: block; width: 60px; background-color: #dddddd; }
```

Active/Current Navigation Link

"active" 가 , 가 .

vertical Navigation Bar

In this example, we create an "active" class with a green background color and a white text. The class is added to the "Home" link.

```
ul { list-style-type: none; margin: 0; padding: 0; width: 200px; background-color: #f1f1f1; } li a { display: block; background-color: #d3d3d3; padding: 8px 16px; text-decoration: none; } li a.active { background-color: #4CAF50; color: white; } li a:hover:not(.active) { background-color: #555; color: white; }
```

vertical Navigation Bar

In this example, we create an "active" class with a green background color and a white text. The class is added to the "Home" link.

Center Links & Add Borders

```
text-align:center <li> <a> 가 ,  
border <ul> 가 , navbar 가 . navbar  
border-bottom 가 .
```

vertical Navigation Bar

In this example, we center the navigation links and add a border to the navigation bar.

```
ul { list-style-type: none; margin: 0; padding: 0; width: 200px; background-color: #f1f1f1; border: 1px solid #555; } li a { display: block; background-color: #dddddd; padding: 8px 16px; text-decoration: none; } li { text-align: center; border-bottom: 1px solid #555; } li:last-child { border-bottom: none; } li a.active { background-color: #4caf50; color: white; } li a:hover:not(.active) { background-color: #555; color: white; }
```

vertical Navigation Bar

In this example, we center the navigation links and add a border to the navigation bar.

Full-height Fixed Vertical NavBar

'sticky'()

Home

News

Contact

About

Fixed Full-height Side Nav

Try to scroll this area, and see how the sidenav sticks to the page

Notice that this div element has a left margin of 25%. This is because the side navigation is set to 25% width. If you remove the margin, the sidenav will overlay/sit on top of this div.

Also notice that we have set overflow:auto to sidenav. This will add a scrollbar when the sidenav is too long (for example if it has over 50 links inside of it).
