Oracle

```
import java.sql.DriverManager;
import java.sql.SQLException;

public class OracleEx01 {

    public static void main(String[] args) {
        String driver = "oracle.jdbc.driver.OracleDriver";
        String url = "jdbc:oracle:thin:@localhost:1521:xe";
        String user = "scott";
        String password = "tiger";
        try {
            Class.forName(driver);
            System.out.println("jdbc driver ");
            DriverManager.getConnection(url, user, password);
            System.out.println(" ");
        } catch (ClassNotFoundException e) {
            System.out.println("jdbc driver ");
        } catch (SQLException e) {
            System.out.println(" ");
        }
    }
}
```
