

JavaScript Array forEach() Method

- description : JavaScript Array forEach() Method
- author :
- email : shlim@repia.com
- lastupdate : 2021-05-26

Example

```
<body>

  <p>List all array items, with keys and values:</p>

  <p id="demo"></p>

  <script>
    const fruits = ["apple", "orange", "cherry"];
    fruits.forEach(myFunction);

    function myFunction(item, index) {
      document.getElementById("demo").innerHTML += index + ":" + item +
"<br>";
    }
    /*
    0: apple
    1: orange
    2: cherry
    */
  </script>

</body>
```
