[JavaScript Array Iteration](#)
 (Array iteration methods)

Array.forEach()

forEach() (, a callback function)

Example

```

let txt = "";
let numbers = [45, 4, 9, 16, 25];
numbers.forEach(myFunction);
document.getElementById("demo").innerHTML = txt;

function myFunction(value, index, array) {
  txt = txt + value + "\, " // 45, 4, 9, 16, 25,
}

```
