Intro

Case Study

```
$('#form input[type="radio"][value="5"]').prop('checked', true);

$('#form input[type="radio"][value="5"]').each(function(index, item){
    var random = Math.floor(Math.random()*5+1);
    // console.log(random);
    $(this).parent().find('input[type="radio"][value="' + random +
    '"]').prop('checked', true);
});
```
