Case Study

```javascript
function formattedTime(seconds) {
  //
  var formattedTime = moment
    .utc(moment.duration(seconds, "s").asMilliseconds())
    .format("HH  mm  ss ");

  //
  var formattedDay = parseInt(
    moment.utc(moment.duration(seconds, "s").asMilliseconds()).format("DDD")
  );

  //                1
  var formatted = formattedDay - 1 + '  ' + formattedTime;

  // 0  , 00  , 00  , 00
  return formatted.replace(/0  /, "").replace(/00.?/g, "");
}

var seconds = 180304;
console.log(seconds, ' -> ', formattedTime(seconds));

--------------------------------------------------------
180304, ->, 2  02  05  04
```
