1	<p>UML Class Diagram illustrating relationships between classes and an interface. The diagram includes: <ul style="list-style-type: none"> Customer (Class): name, address Order (Class): date, status, calcTax, calcTotal, calcTotalWeight Payment (Interface): amount Credit (Class): number, type, expDate, authorized Cash (Class): cashTendered Check (Class): name, bankID, authorized OrderDetail (Class): quantity, taxStatus, calcSubTotal, calcWeight Item (Class): shippingWeight, description, getPriceForQuantity, getWeight Legend: <ul style="list-style-type: none"> ① Interface ② Association ③ Class Name ④ Fields ⑤ Methods ⑥ Implementation ⑦ Role Name ⑧ Navigability ⑨ Multiplicity </p>	Class Diagram()		
2	<p>Flowchart illustrating a process flow. The flow starts with the question "What happened to?". It branches into two main paths: "Sun" and "Gall". <ul style="list-style-type: none"> Sun Path: <ul style="list-style-type: none"> Decision: "Are symptoms severe?" <ul style="list-style-type: none"> Yes: "Treat as early TB patient and perform full TB exam" No: "Have patient back in 2 weeks for checkup" Gall Path: <ul style="list-style-type: none"> Decision: "Can TB be brought?" <ul style="list-style-type: none"> Yes: "Administer TB test" → "Assess TB test results and check condition" No: "Order test" → "4 months preventive treatment" → "Reassess TB test in 4 months and symptoms" Decision: "Order test" <ul style="list-style-type: none"> Yes: "Tuberculin history" → "Tuberculin test for TB" → "If TB test diagnosis, treat for TB" → "If other diagnosis, monitor; treat as needed and watch for TB symptoms" No: "Tuberculin history" → "Tuberculin test for TB" → "If TB test diagnosis, treat for TB" → "If other diagnosis, monitor; treat as needed and watch for TB symptoms" </p>	Flow Chart()

3	 <h3>Organizational Chart</h3> <p>The diagram shows a hierarchical organizational chart. At the top is a red box labeled "Texts here". It branches into two blue boxes labeled "Texts here". Each blue box branches into two orange boxes labeled "Texts here". The orange boxes further branch into blue boxes labeled "Texts here", which then branch into grey boxes labeled "Texts here".</p>	Org Chart()		
4	 <h3>Swimlane Diagram</h3> <p>The diagram is a swimlane diagram with five lanes: Human Resources, Employee, Manager, Payroll, and Payroll/center. It shows a process flow starting with "Request Entry" in HR, moving to "Employee" for "Change in Center Info & New Terms report", then to "Manager" for "Review & Approve", "Approval/entry", and "Contract Entry". It then moves to "Payroll" for "Contract Completion", "Contract Employee Information Report", "Contract Employee", "Check for Bank Processing", and "Send Data to Payroll Processor". Finally, it goes to "Payroll/center" for "Payroll Reports".</p>	Swimlane Diagram()		
5	 <h3>Order System ER Diagram</h3> <p>The diagram is an Entity Relationship Diagram (ERD) for an Order System. It shows several entities with their attributes and relationships. Entities include Customer, Product, Order, Supplier, and others. Relationships are shown between these entities, such as "Customer -> Order", "Product -> Order", and "Supplier -> Order".</p>	Entity Relationship Diagram(ERD)
