

# List

## How to iterate over a list of lists in jstl?

```
<c:forEach var="innerList" items="${mylist}">
  <c:forEach var="obj" items="${innerList}">
    <c:out value="${obj.val}"></c:out>
  </c:forEach>
</c:forEach>
```

# Map

## LIST

```
<c:forEach var="entry" items="${resultMap }" varStatus="status">
  <tr>
    <td>${entry.key }</td>
    <td>${entry.value }</td>
    <td>${entry.key.class }</td>
  </tr>
</c:forEach>
```

1

```
<c:out value='${resultMap["${key}"]' } />
```

2

```
<c:set var='idAsString'>${resultInfo.id }</c:set>
<c:out value='${resultMap[idAsString].id }' />
```

JSTL MAP , (KEY )

# Test

[JSTL] eq, ne, empty eq

```
null: <c:if test='${ null eq name }'></c:if>
: <c:if test='${ 0 eq name }'></c:if>
: <c:if test='${ 'string' eq name }'></c:if>
```

ne or !=

```
null: <c:if test='${ null ne name }'></c:if>
: <c:if test='${ 0 eq name }'></c:if>
```

```
: <c:if test='${ "string" eq name }'></c:if>
```

empty

```
      : <c:if test='${empty map }'</c:if>  
      : <c:if test='${!empty map }'></c:if>
```

## Tip

## Trouble shooting

## Ref
